

Efficiency and Silence – New Enermax Power Supply Series

On the US trade fair CES 2008 Enermax officially presented the new power supply series Modu82+ and Pro82+ - raising standards in terms of efficiency and silence. Just in time for the CeBIT Enermax initiates sale in Europe.

Hamburg, 26.02.2008. The visitors of the German CeBIT in Hannover, the world's largest IT trade fair, will become witnesses of a new silent and efficient PSU generation. Enermax launches two innovative PSU series: Modu82+ and Pro82+.

MODU 82+
raising standards

PRO 82+
raising standards

80PLUS® Bronze for whole series

Efficiency has become an important factor in IT. Programs such as 80PLUS® encourage the development of innovative and efficient power supplies. Enermax supports this energy-saving initiative. The new PSU series Modu82+ and Pro82+ meet the requirements of the 80PLUS® Bronze certificate reaching an efficiency from 82 to 88% at 20 to 100% load.

Unbelievable silent

With Modu82+ and Pro82+ Enermax' developers set new silence standards. A patented air-inlet, the so-called AirGuard, limits noisy air turbulences. For an optimal and as well quiet cooling an advanced logic cooling fan is embedded in Modu82+ and Pro82+. It reduces total noise up to 5 dBA in low loads.

Prepared for upcoming innovations

Modu82+ provides a modular cable management, which helps to get rid of the cable tangle inside the PC case. With its 12-pin socket the Modu82+ is well prepared for future CPU and graphics cards. Furthermore both series support the latest ATX12V v2.3 standard. This ensures full compatibility with future multi-core processors. For gaming systems the high-performance 625 W models offer enough 6- and 8-pin PCI-E sockets for up to four graphics cards.

Modu82+ will be available in the following power ranges: 425 W, 525 W and 625 W. Pro82+ will be sold in four different models: 385 W, 425 W, 525 W and 625 W.

Technical Details

Pro82+	Power	Efficiency
EPR385AWT	385 W	80PLUS® Bronze
EPR425AWT	425 W	80PLUS® Bronze
EPR525AWT	525 W	80PLUS® Bronze
EPR625AWT	625 W	80PLUS® Bronze

Modu82+	Power	Efficiency
EMD425AWT	425 W	80PLUS® Bronze
EMD525AWT	525 W	80PLUS® Bronze
EMD625AWT	625 W	80PLUS® Bronze

About Enermax:

Enermax Technology Corporation was founded in 1990 by a group of young, enthusiastic, and high-tech oriented professionals in Taiwan. These Enermax founders left high-profile positions from prestigious computer firms, and brought more than 10 years of professional experiences into building their own. The main products of Enermax are switching power supplies, PC cases, cooling fans and other peripherals such as external enclosures and keyboards. Enermax products comply with the needs of PC-Builders and Assemblers who thrives for highly valued and reliable system components. We demonstrate our ability through continual adaptations of new technologies, innovative solutions and dedicated support. Enermax Germany was founded in March 2003 as Coolergiant Computers Handels GmbH in Hamburg to provide convenience and better service for the German customers.
